Creative Approach

Our Illustration Style

Our core illustration style tells human stories that are relatable, universal and highlight the everyday moments where Walmart shows up. Inspired by our positioning of ‘people-led, tech powered,’ our artists start with a handcrafted approach that is then refined digitally. We carefully consider composition, light, shadow and texture to capture depth and dimension. Our scenes and subjects are rooted in a reality that is empowering, optimistic, and uplifting without feeling saccharine.

Brand Behavior Idea
Internal-facing ethos that guides how we look, feel, sound, speak, and behave.

For every day, in every way
Embrace that your humanity, agility, and giant scale make you an ally: there for your customers, everyday and in every way.

Brand Principles
Created at a brand-level to direct how Walmart behaves as an overarching brand

Grassroots	Agile	Pioneering
We never forget our humble beginnings; we’re relatable, down-to-earth, and part of the community	Agility is our x-factor. We are constantly improving, endlessly testing, always adapting	Since the beginning, we’ve blazed a path and never settled, because that’s what it takes to make life better and easier

Illustration Principles
Ladder-up to brand principles, but are specifically tailored to guide illustration

Relatable	Dynamic	Heroic
We always want our customers to see themselves in our imagery. Our illustration style is a celebration of the human experience that feels believable and relatable—it should always depict characters with realistic proportions and skin tones. For both people and products, we showcase a full spectrum of colors, quirks and imperfections that reflect the diversity of our communities.	Our imagery is high energy and full of movement. Our illustrations incorporate movement in a variety of ways that flex across our various enterprise styles. It may manifest as both literal movement, as in a depiction of a figure running across a frame, or compositional movement created by layering, depth, or directional brush strokes.	Our illustrated figures should feel confident and empowered. We depict characters with expressions and body postures that feel optimistic and uplifted, and we don’t shy away from bold application of vibrant colors and strong areas of light and shadow.

Vestibule:
Walmart Community
Placement

Walmart in the community will replace the "Hello, Elm Springs!" wall and span across the doorway threshold and replace the 3 framed graphics as well.

Above the doorway there will be language that says: “Welcome to your Walmart.” The illustrated murals will incorporate text that says “Thank you [insert name of town/city].”

Latest Feedback

Copy

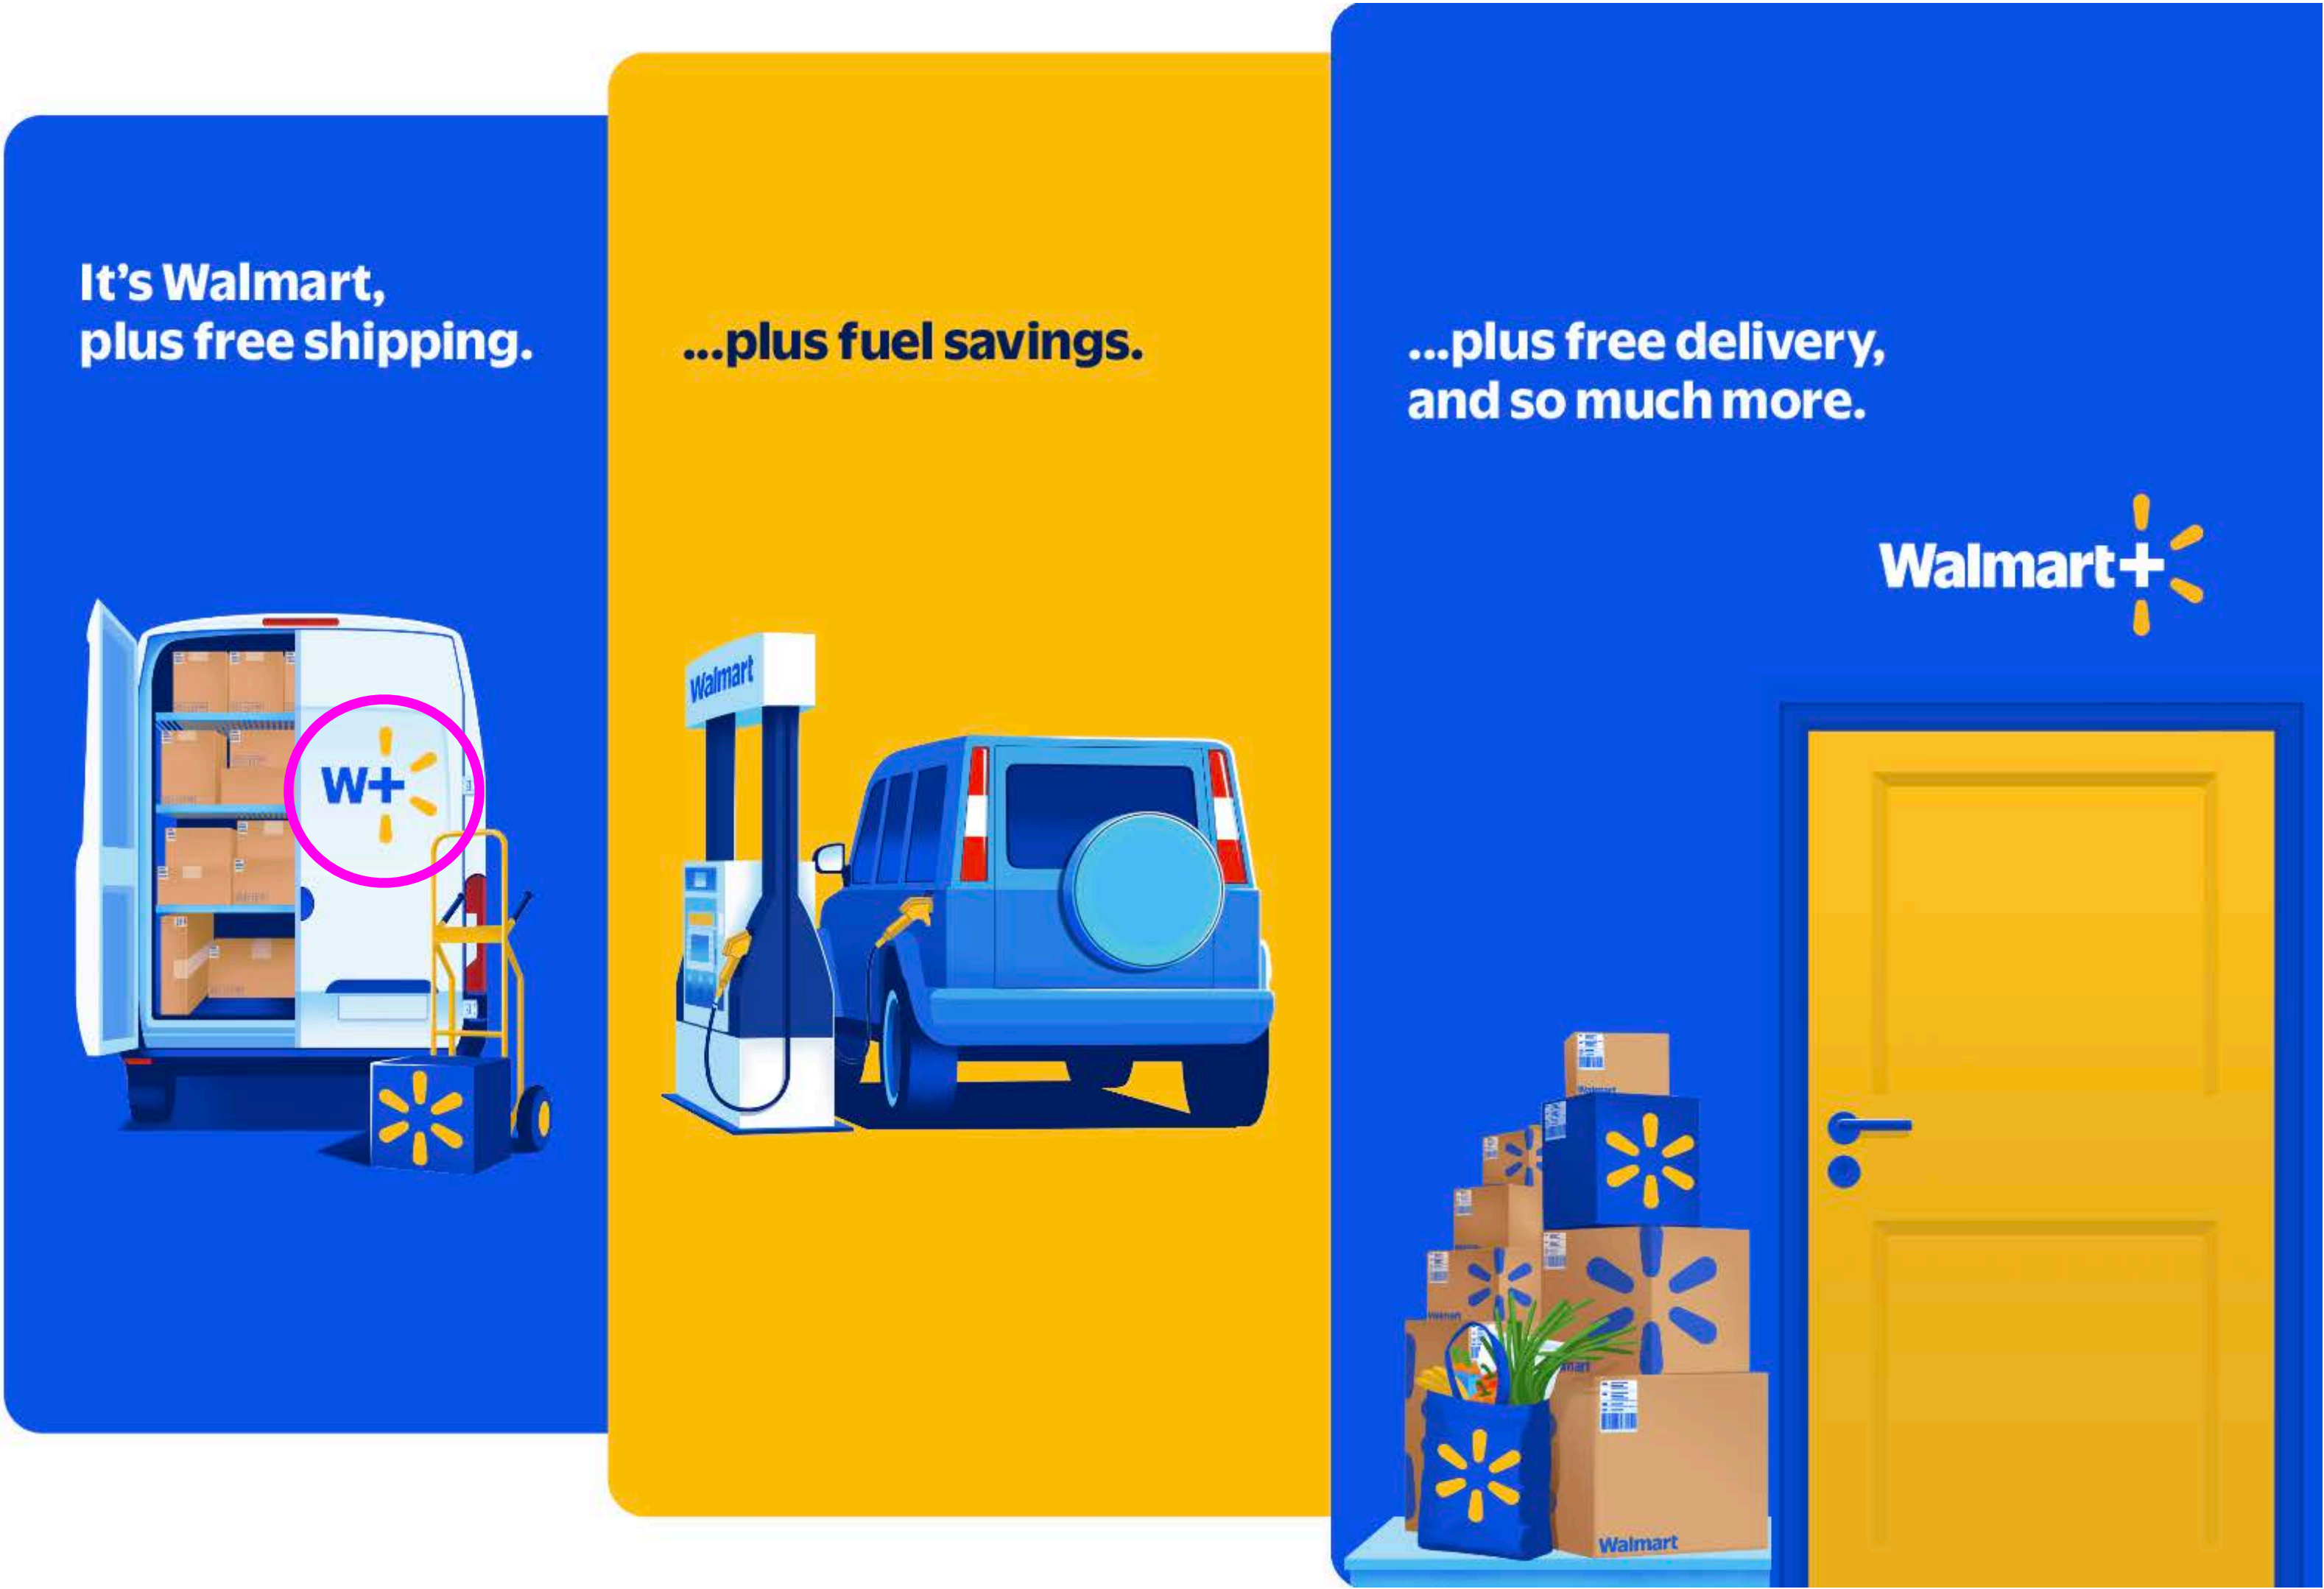

- “It’s Walmart, plus free delivery, plus fuel savings, plus so much more”
(JKR has concerns about changing the order of the copy since “delivery” needs to be last to line up with door frame)

Layout

- Keep 3 tiles the same scale

New comments 10.8:

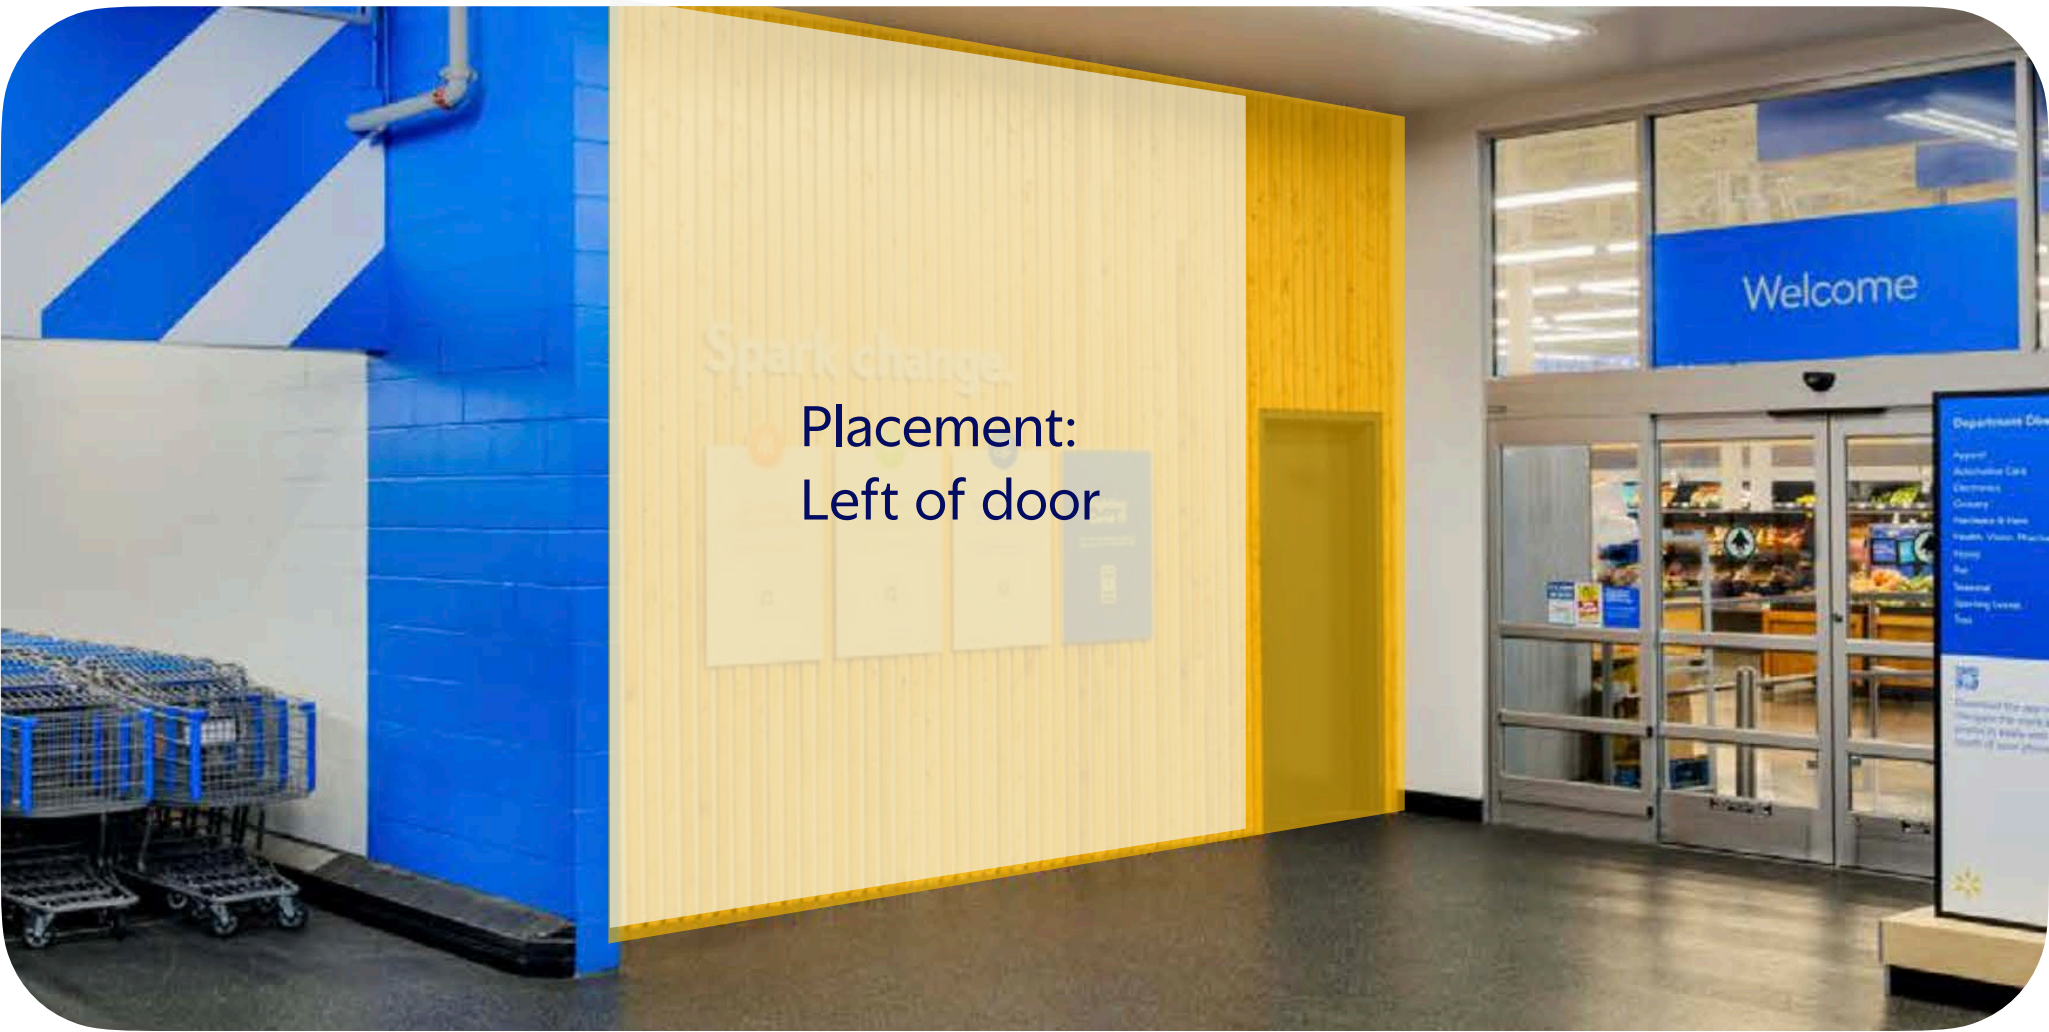

- Is this being built to read left to right? I’m -thrown off by the increase in scale (figured we’d start bigger and then go smaller).
- Missing “Walmart+” (logo) and that it’s a membership – if we have just a couple of seconds to get that across, how do we build that in (e.g., copy that mentions members or membership, a “become a member” CTA, etc.).
- We aren’t using the W+ logo anymore so remove from truck
- Suggestion on benefit flow – free delivery, fuel, and perhaps broad “plus other time and money saving benefits” (benefits cues membership) or list out a few others.

Fresh

Today, Fresh signage utilizes a natural oak and uses of green to cue fresh and organic.

Produce:
Fresh Picks
Brief

A bold, graphic pattern consisting of colorfully rendered fruits and veggies. The specific produce depicted is flexible, but should include a variety of colors and shapes. A few possible options:

- Orange
- Tomato
- Blueberry
- Pea Pod
- Bell Pepper
- Purple Shallot
- Eggplant
- Romaine Lettuce
- Carrot

Seafood, Meat & Poultry: Today

Meat & Poultry:
Sizzle and Serve
Brief

This illustration showcases people cooking together in a kitchen, plating a beautifully cooked meal.

It conveys the energy, passion, and happiness that comes from cooking and sharing meals with others, emphasizing the joy and fulfillment found in these everyday rituals. Subjects are depicted on a clean background to focus the eye on the items being cooked—meat, poultry, and seafood.

Meat & Poultry: Land to Ocean Brief

A single panoramic landscape that transitions from land so sea, highlighting the different agricultural and natural environments from which our meat, fish, and poultry products are sourced.

Each scene includes small vignettes that speak to the origins of specific products, as outlined here.

Final composition will make greater use of depth and dimension, utilizing foreground elements to help guide the eye across the composition.

Bike Wall

Today, the Bike Wall illustration features simple graphic icons of bike tools and accessories—appearing more textural to elevate the type.

Bike Wall: Wheels in Motion Brief

An isolated depiction of a person riding a bike, viewed at a dynamic 3/4 angle.

Illustration is graphic and simple while conveying a sense of action and motion.

Note:
This design will hero the bike and not symbolize other outdoor sports.

Pharmacy:
Counter
Brief

A close-up illustration that shows a customer speaking with a pharmacist and receiving a prescription. Pharmacy desk, point of sale, and shelving with medication should all be included to set the context.

Illustration will be provided as spot illustration for use on True Blue background (PMS 2728). Please consider colors that will contrast sufficiently against this background.

Dairy

Dairy Brief

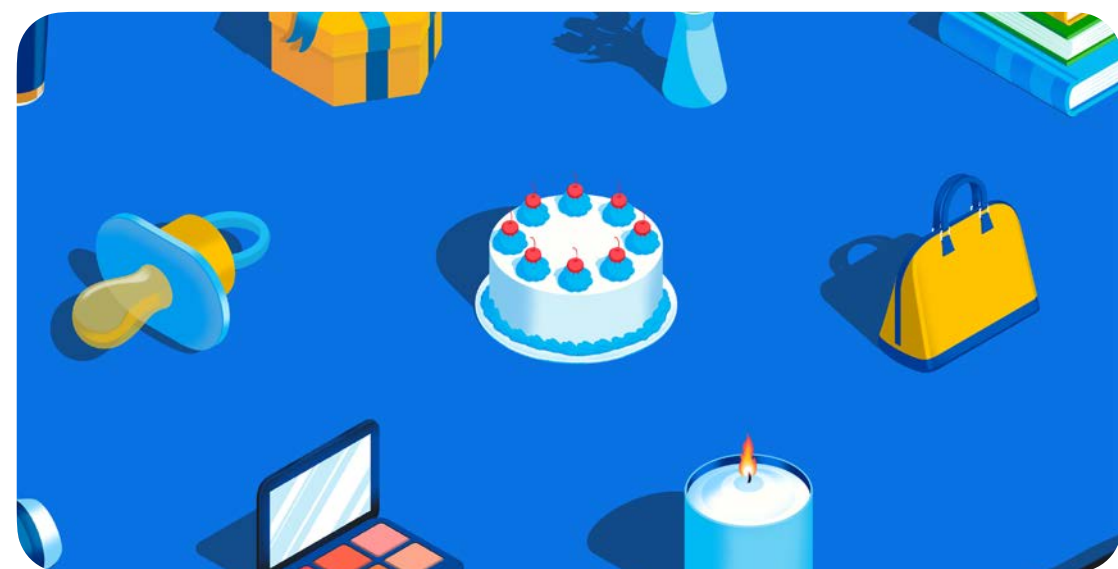

A bold, graphic tablescape consisting of rendered dairy products, cheese and eggs. The specific elements to depict are below. It can be a mix of packaged items and prepared foods. It should include at least 7 elements and a variety of colors and shapes.

Background color: True Blue

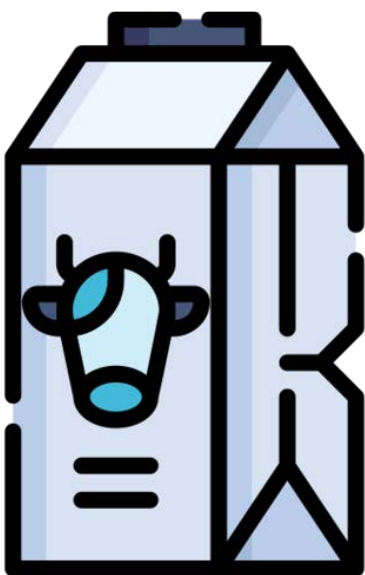

- Dairy Milk: carton and/or glass
- Plant-Based Milk: carton and/or glass
- Block Cheese (cheddar or brie)
- Shredded Cheese
- Sliced Cheese: sliced and/or in grilled cheese
- Cream Cheese: pot and/or spreading
- Eggs: carton and/or pan
- Orange Juice: pitcher and/or glass
- Heavy cream: small carton
- Coffee creamer: small creamer pitcher
- Yogurt: cup with spoon

Note: When representing a packaging, keep a generic look and feel (should not be a recognizable brand) and don't use words.
Dimensions: 96" W x 96" H

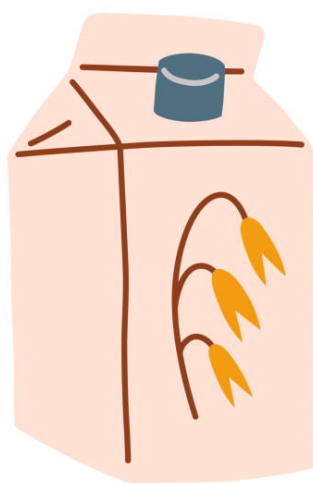

APPROACH

ELEMENTS

Dairy milk: shown in generic carton or in glass

Plant milk: shown in generic carton or in glass

Milk: Glass with or without pour

Heavy cream: carton with whisk

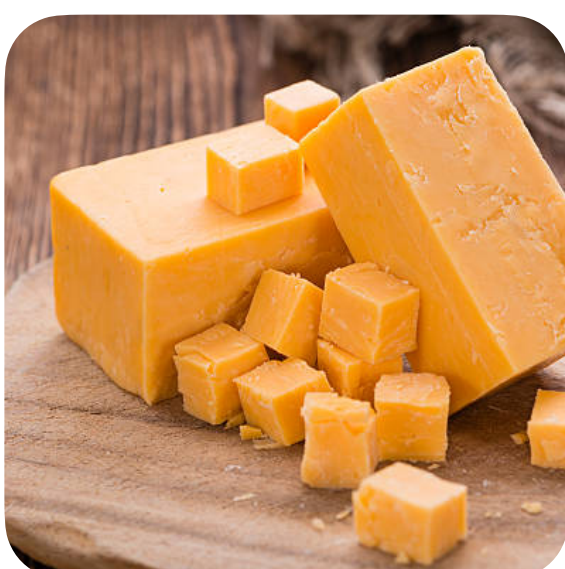

Cheese Block: Brie wheel with cut pieces

Cream cheese: spread on bagel, and/or in container

Cheese slices: Grilled cheese

Cheese Block: Cheddar type

Eggs: in carton

Eggs: frying in pan

Orange Juice: Jug, pitcher or cup

Yogurt: fruit yogurt cup with spoon

Feedback R1

Overall

- Items can be be more centrally clustered, and closer together (see FPO for how illustration will appear in situ)
- Any 'core' items (milk, eggs, cheeses) should be moved to the center, with the other things surrounding it
- Love the cheese slices!
- Milk carton: Avoid drippy motif–use just simple stripes, use carton pour top vs. plastic lid
- Remove lemon
- Replace bottom bagel with butter in butter tray
- Remove tile pattern, since it will appear in a larger context

Form reference
- Taller, more like a quart :)

Graphic reference:

- Stripes or color blocking only
- Do not include the word Milk

Replace with stick of butter in butter tray

Placement reference only :)

Dairy
Feedback R2

Overall

- Let’s introduce shadows cast by objects—right now everything feels like it’s floating, not grounded enough
- Make sure perspective is consistent: for example, perspective on pitcher and yogurt feels inconsistent with other objects
- Assure that we are scaling objects in proportion to each other. For example, the stick of butter feels too small compared to other items.

Content and composition

- Frying pan can be smaller, eggs can fill space of pan better
- Remove glass of milk
- Reduce scale of creamer jug
- Center of composition feels a little too cluttered and crowded with cheese—remove cubes of cheese, reduce scale of wedges of cheese
- Angles on the milk carton are not parallel
- Chunk of cheese closest to milk carton appears to be floating

Add shadows
back to objects

Wedge of
cheese
appears to

Global Feedback

1. Include 3 items in every pictogram

As discussed, we've focused on revising compositions to fill the space of each sign more effectively rather than adding unnecessary third items that may cause visual clutter or compromise quick legibility.

1. Use white as a main color in every pictogram

We've introduced more white where contextually appropriate for each pictogram, without forcing a universal color approach.

3. Use red and yellow accents in every pictogram

We've introduced more red and yellow where contextually appropriate for each pictogram, without forcing a universal color approach.
